BCP 50/50 SPLIT DEPOSIT BOND 4

These innovative bonds offer investors a two tier investment package. 50% is placed in a 12 month high yield deposit account which assures investors of a 6% gross gain (6% AER). 50% is invested in a 4 year 3 month Capital Secure Global Equity Bond, with 2 versions to choose from.

HOW THE BONDS WORK

12 MONTH HIGH YIELD DEPOSIT ACCOUNT

50% of the BCP 50/50 Split Deposit Bond 4 is placed in a 12 month deposit account which assures investors of 100% capital security provided by Bank of Ireland, and assures investors of a 6% gross gain (6% AER) on the deposit element.

At the end of 12 months, on 30th March 2013, 50% of the investment amount along with deposit interest of 6% gross (6% AER) will be paid out to investors. Where applicable, interest will be paid after deduction of Deposit Interest Retention Tax (DIRT) currently 30%.

QUADRUPLE/DOUBLE GROWTH BOND

50% is allocated to the basket which is equally weighted between each of the 25 shares. At the end of the 4 year 3 month Investment period, the percentage performance (gain or loss) of each share is calculated (the increase in each share in the basket being limited to 20%). The average performance of the 25 shares is then calculated and this percentage will then be quadrupled or doubled to determine the Interest to be added to the capital amount secured in each bond.

In order to protect the performance of the basket from short-term volatility in stock markets towards the end of the Term, the Final Price will reflect the average price of each share on a monthly basis over the final 6 months of the Term. The effect of averaging is to protect returns in a falling market but conversely it may restrict growth in a rising market.

THE BCP QUADRUPLE GROWTH BOND

90% Capital Security provided by Bank of Ireland

The Quadruple Growth Bond will pay investors 4 times the average growth achieved by the equity basket of 25 shares, the return being capped at 70%, equivalent to 16.5% gross per annum (CAR 13.3%) over the 4 year 3 month investment Term.

CALCULATION OF RETURN

50% of your investment is allocated to the basket which is equally weighted between each of the 25 shares. Whatever the growth in the shares in the equity basket up to 20% over the investment Term, the Quadruple Growth Bond will quadruple the growth. This is added to the minimum amount (90% of this portion of your investment) that is capital protected. For example, if the basket performance is 20%, the return to investors will be 90% of the invested amount plus 80% (4 x 20%) to give the total maximum return of 70%. If the basket performance is less than 2.5% over the 4 year 3 month investment Term, you will receive back between 90% and 100% of this portion of your investment. In any event, Bank of Ireland will pay at least 90% of the portion invested in this part of the Bond.

EXAMPLE RETURN:

If the basket performance is 16% the return to investors will be 90% of the invested amount plus 64% (4 x 16%) giving a gross return of 54%, equivalent to 12.7% per annum (CAR 10.7%) (36.2% after DIRT at 33%).

WARNING: These figures are estimates only. They are not a reliable guide to the future performance of this investment. The value of your investment may go down as well as up. You may get back less than you invest. If you invest in the BCP Quadruple Growth Bond you could lose 10% of the money you invest.

THE BCP DOUBLE GROWTH BOND

100% Capital Security provided by Bank of Ireland

For investors who want higher capital security, the Double Growth Bond will return twice the average growth from the same basket of shares capped at 40%, equivalent to 9.4% gross per annum (CAR 8.2%) over the 4 year 3 month investment Term.

CALCULATION OF RETURN

50% of your investment is allocated to the basket which is equally weighted between each of the 25 shares. In this case, whatever the growth in the shares in the equity basket up to 20% over the investment term, the Double Growth Bond will double this growth to calculate the return in the Bond. Again, if the average performance is 20%, the return to investors will be 100% of the invested amount plus 40% (2 x 20%) to give the total maximum return of 40%. Even if the equity performance is negative over the Term of the Bond, Bank of Ireland will pay 100% of the portion invested in this part of the Bond.

EXAMPLE RETURN:

If the basket performance is 16% the return to investors will be 100% of the invested amount plus 32% giving a gross return of 32%, equivalent to 7.5% per annum (CAR 6.8%) (21.4% after DIRT at 33%).

WARNING: These figures are estimates only. They are not a reliable guide to the future performance of this investment. The value of your investment may go down as well as up.

Note: CAR is the Compound Annual Return and AER is the Annual Equivalent Rate and illustrates what the gross interest would be if the Interest was paid and re-invested each year.

Minimum Investment €10,000

SUITABILITY

The Bonds are not suitable for investors who require regular income or require access to their capital before maturity. The Bonds are suitable only as a capital growth investment. The return on the part invested in the Quadruple and/or Double Growth Bond will depend on the performance of the underlying equity basket. No withdrawals may be made before the end of the 12 month and 4 year 3 month Terms (30th March 2013 and 30th June 2016 respectively).

CHARGES

BCP Asset Management receives a fee for the design, manufacture and ongoing administration of the BCP 50/50 Split Deposit Bond 4. This fee is covered within the terms offered on each Bond.

NO CURRENCY RISK

The BCP 50/50 Split Deposit Bond 4 is not exposed to foreign currency hence there will be no currency risk or hedging cost.

CAPITAL SECURITY

The BCP 50/50 Split Deposit Bond 4 is a deposit based investment and capital security is provided by Bank of Ireland.

TAXATION

Under current legislation, the gross interest earned on the high yield deposit account will be paid after deduction of Deposit Interest Retention Tax (DIRT) at 30%, and the gross interest earned on the Quadruple/Double Growth Bond will be paid after deduction of DIRT at 33%. This will apply at maturity and will be deducted at source. However, certain non resident investors, credit unions, charities, pensions and companies may apply to receive returns gross without deduction of tax.

The Finance Act 2007 (as amended by the Finance Act 2011), allows the operation of DIRT free accounts for investors aged 65 years or over, whose income is under €18,000 (or €36,000 for married couples). Investors should satisfy themselves in relation to Revenue reporting requirements and the implications of non-disclosure where required.
